

Collaboration

Tech

- smart LX - Black light
- smart Phase, LayTop
- Lighting - live stream
- 02 stage media - Instagram
- Social Media - Set images
- Multi-recording Stage
- Sound - loop pedal
- SFX
- Backing Tracks
- Moving Staging
- Robots, Holograms
- Film, YouTube
- photos

Effective Decision-making

- Organisation
- Communication
- Flexibility
- Focus
- Minimise distraction

Scheduling

- conflict
- building
- partnership
- listening
- step up
- step down

Recording Evidence

- Use phones to film or photograph rehearsals
- Edit on comp / lips / phone
- Dropbox per group or Drive
- Rotating roles for who is the evidence recorder

Prefer: film, video, ppt, video production
 director's cut, podcast, documentary

X7 SX
Technology
 Green Screen, Video Recording, Cameras, Virtual Reality, YouTube, Instagram, FB, Tick Tok, Social Media, Video Film Editing, Live Stream, Voice Recording, Tablets, Laptops, Phones, Video Diary, Vlog, Projection, Apps that control these

Risk taking (not being afraid of sharing ideas)
Confidence In self & able to share views & ideas/opinions

Analysis
 deconstructing ideas
 meaning & subtext
 appraisal

Collaboration & Negotiation
 Working together
 Solving problems
 Solving problems together

Communication
 & listening effectively
 speaking

WHAT SKILLS?

Creativity
 Skills to generate original ideas
 flexibility
 originality
 frequency

Empathy
 carrying about & understanding other people's points of view
 synthesis

Cultural Capital
 applying background knowledge

Virtual Schoolbag
 bring things from outside reports

Perspective
 bring things from outside reports

Reflection
 Evaluating for improvement

Teachers
(Record of
evidence)

Film every rehearsal
Shared folders

For production support

Lighting
and Sound.

Developing soundscapes,
sound effects layers.

Multimedia

Projected images for set
interaction with filmed characters/
animated characters.

Application
of
Technology

Student
(performance)

- Greenscreen (film unit)
- Torches on student phones as part of puppetry unit
- Video diary.

Puppetry

video &

film

→ Working in groups

- Creative Thinking
- Problem Solving

- Collaboration

Thinking

towards a

common goal.

- Ensemble

- Confidence & Performance

- Organisation

- Analysis &

Evaluation

- Use of Dramatic terminology

- Making their ideas a reality

- Application of Dramatic Skills

+ Elements of Drama

- Communication

- Working with limitations & active Contribution

Technology

Stroke

Shadow

Lights - rigging - portable phones - today

Filming Process

Live stream

YouTube channel

Social media

Publicity

Live stream

- Backstage

Special effects

Sound - effects

Music

Live feed camera

Protocols

OneNote -> Theatre comp. for notes

Computers -> Padlet

Smoke lines, Google Docs - script writing

Short film-making editing

Recording Performance

3D printer

Microphones Animation

Portable projectors

Projection rigged

Apple TV

Recording Booth

Project onto actors/set

Appliances

Positive
appreciation
& respectful
engagement

Active
Participation/
engagement

Collaboration - working together
for a shared purpose.
Team work - Defined roles within a team
environment.

Listening

Conflict resolution - Leadership
group norms

Communication
Trust

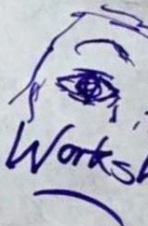

Creativity - creative
problem solving
- idea generation

Execution of ideas - Presentation
- Rehearsal/Rehearsal

Pitching for a common Purpose

Time Management - Planning
- Risk taking

Metalinguage

I Have + the cartoon!

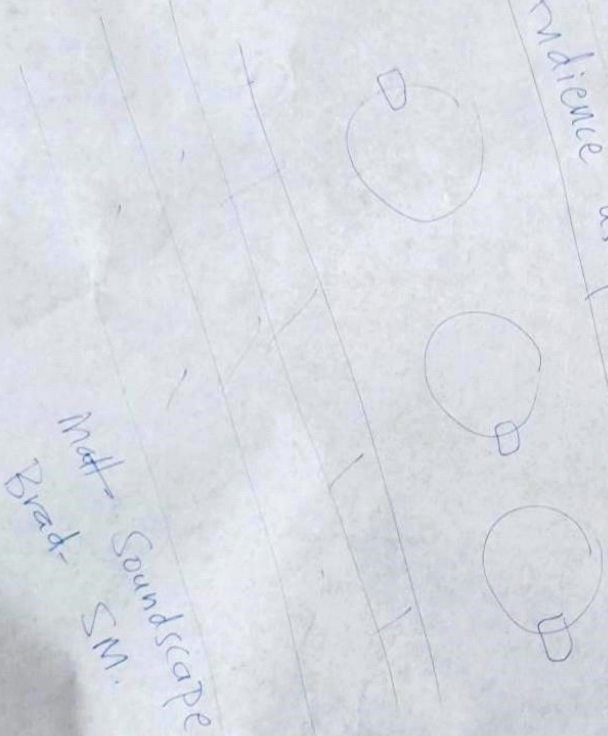

Why

The experience of showing a story + being in the shoes of a refugee experience.
empathy.
What does it have
Feel like to
another performs voice.

What

headphone
What explores stories of refugees travelling to and arriving in South Australia.
Audience as performers. Participatory.

Matt - Soundscape
Brad - SM.

Padlet
Brainstorm
Contribute
ideas in
discussion.

• Social media
platform + website,
for creating/promoting
their company.

• Students
their own
of process
or designing
recording
evidence
of reiterations
process

Communication between
ensemble members.
group chat / portal etc.

DropBox
to share
source material
Workshop material
Research etc.
Documentation.

Photoshop
publicity promo
concepts - set etc.

• Web 3.0 tools
to collaborate
for work
doc for co-construct
(eg Google Docs etc)
to keep shared files,
Google Drive, One Drive, Dropbox

Voice record
reflection on a discussion
or meeting.

Smartphone / iPad apps
for storyboarding

Students using
Smart Phones to film +
edit products.

Shared doc
for scheduling.

Source
images of
reference material
for design.

Photographs
of design concepts /
materials etc.

Justification on

classifying

* Interpretation through tool

what to keep
what to discard

+ Entrepreneurship

+ Critical +

Creative Thinking

a way of looking for a
solution or perspective
of problem or situation
can be stimulated by
an unstructured process

+ Investigative

the objective and
analysis and
evaluation of
an issue in form
order to judgement

* Synthesis of
information +
ideas

ability to infer
relationships among
sources / essays / articles etc

Collaborative
problem
solving

Working together
in a focus on
solving real world
problems
